### ALERT FLOOD WARNING

*Collapse*

This property is in a Flood Zone. There is an estimated 1 in 4 chance of flooding during a 30-year span. For this reason, flood insurance is required by lenders for homes in high-risk flood areas. It is also a condition before you can receive a mortgage from a federally regulated or insured lender. If there is no outstanding mortgage, make sure that the policy is in place and up to date.

### POSSIBLE ISSUES LEAD-BASED PAINT WARNING

*Collapse*

Some homes built before 1978 may contain lead-based paint. The older the structure, the more likely it may contain lead paint. Check for peeling, cracking or chipped paint on older painted stairs and banisters. Also check lead-paint dust around windows and door areas.

### POSSIBLE ISSUES ASBESTOS WARNING

*Collapse*

Some homes built prior to 1980 may contain asbestos in ceiling tiles, old floor tiles, siding and fireplace insulation, pipe cement and joint compound used on seams between sheetrock. Attic insulation in these homes may also be contaminated with asbestos.

### POSSIBLE ISSUES ROOF CONDITION

*Collapse*

Housefax was not able to locate a record of a building permit for roof work performed on this property. Most roof shingles last 20 to 25 years depending on the quality of the shingle along with weather trends. Therefore, if the home is older than 20 years, a roof inspection prior to selling or buying is recommended.
